Your every thought leads to an action or none, and it counts.

Q1: Can I (in the right block) be reproduced (by you)?
Q2: How much does it cost to make me?
Q3: How else can I be made?
Q4: Shall I be mass-produced?
Q5: Shall I have a family? Make “we”?
(Do you know what I mean?)
Q’s: (Other questions? Answers?)

Critical thinking, what is it?

Everyone thinks. It is our nature to think.

BUT,
do you know, much of our thinking, very probably is biased, distorted, partial, uninformed or totally prejudiced. (Do you recognize that and know why?)

YET
the quality of our life and that of what we produce, make, or build depends precisely on the quality of our thought.

Shabby thinking is costly, both in money and in quality of life.

Excellence in thought must be systematically cultivated.
